CHILD LABOR IS A DELUSION AND A MERE INDUSTRIAL MISFIT

LOCAL ENGINEER HAS PLAN FOR DRIVING A TUNNEL

BRANCH SMITH PREPARES AN ARTICLE FOR SUNDAY'S DENVER POST

Plans for building the big tunnel of the Denver & Salt Lake railway, the reorganized name of the old familiar "Moffat Road," between Denver and Salt Lake, are under advisement and some of the most eminent engineers of the country are figuring on how the work is to be accomplished in the cheapest and most effective manner.

Branch Smith, superintendent of the Monarch Pittsburg of Tonopah, has taken an active interest in the plans and at the request of the Denver Post has prepared an article for that paper suggesting methods by which the big hole can be bored and lined at a fraction of the cost paid in doing similar work on the New York aqueduct line. His system is to drift through from end to end and then, when a circulation of air has been established, to begin stoping by means of the bench system just the same as a miner would remove the rock. In this way Mr. Smith thinks the cost of mucking can be greatly reduced and the tunnel driven in a minimum of time.

The distance to be negotiated is 31,200 feet, or close to six miles, without any middle shaft to help out the ventilation, as it is proposed to operate trains by electrical engines with power generated from mountain streams that course down to the Atlantic and Pacific from opposite sides of the continental divide.

UNWRITTEN LAW NOT POPULAR WITH THE PEOPLE OF GERMANY

(By Associated Press.)
BERLIN, March 18.—Germany is not yet ready to see the "unwritten law" become a feature of trials of husbands or wives for killing faithless partners. Press comment on the acquittal of Count Mielzynski, who slew his wife and her nephew in the countess's bedroom, is sympathetic toward the count, but the acquittal is generally considered a miscarriage of justice. The Kreuzzeitung even makes it a text for advocating abolition of the jury system. It says also: "We can understand how the jurors felt themselves impelled to acquit if possible. From a purely humanitarian standpoint one can be glad that they did reach an acquittal. Count Mielzynski's holiest rights were transgressed against and his deed testifies to a feeling of honor and an earnest appreciation of the married relation which we could only wish prevailed everywhere among our people. But the basic principle of our justice, that the individual shall obtain his rights and revenge through the state, may not for this reason be abandoned."

OUTBREAK EXPECTED IN PARIS

ARMED FORCES HELD IN RESERVE TO CHECK MADDENED MOB

(By Associated Press.)
PARIS, March 18.—Armed detachments posted at strategic points served to heighten the tense situation following the assassination of Gaston Calmette, editor of the Figaro, by the wife of Minister of Finance, Caillaux Monday. Various political actions are meeting with excitement. The police are constantly dispersing mobs, which immediately reassemble. Yellow journalism is helping to inflame the populace. Mme. Caillaux is a heroine among some and denounced by others. The Figaro offices and government buildings are closely guarded. The prisoner is breaking down under constant observation.

ECCENTRIC WOMAN DIES IN BAVARIA

HELPED SPAIN FINANCIALLY DURING THE WAR WITH UNITED STATES

(By Associated Press.)
BERLIN, March 18.—The recent death of Baroness Frederick Truchsess and Weizhausen, an eccentric Bavarian aristocrat, recalls the assistance she rendered Spain during the war with the United States. She was of Spanish stock and gave practical expression to her sympathy by a cash contribution of \$65,000 to the Spanish war chest. After the defeat of Spain she retired entirely from public notice, disappointed and embittered.

DAUGHTERS, TOO, WERE THERE LAST NIGHT AT ANNIVERSARY BALL

St. Patrick's Day was celebrated in the proper spirit last evening when Miners Exchange hall was packed to the doors and scores turned away. The ladies of St. Patrick church proved excellent hostesses and a glance at the huge transparency over the stage furnished the keynote to the entertainment. This was "Mille a l'aitte" worked in letters two feet high. The meaning of this emblem is "A hundred thousand welcomes" and the lady managers showed the true spirit in taking care of their patrons. The younger element held the floor to a late hour and the parents enjoyed themselves to the strains of "St. Patrick's Day in the Morning." "Pratties and Fishes are Very Good Dishes," "The Harp That Once Thro' Tara's Hall," "The Minstrel Boy" and a score of other patriotic melodies.

ONE MOUNTAIN LOCATION WORK BEING RESUMED

COPPER DISTRICT HOLDS THE ATTENTION OF EXPERIENCED PROSPECTORS

John Hausman is filing certificates of locations made ten years ago and relocated several times since then. They are at Lone Mountain, about nine miles from McLean's station on the T. & G. railroad, and are known as the Baltimore and Springfield groups, embracing seventeen claims. The values are in copper and at one time Mr. Hausman sold one of the groups to George E. McClelland for \$50,000. A payment of \$7000 was made by McClelland and nothing further was done as McClelland had made a big stake through the sale of the Jumbo to the Goldfield Consolidated and pocketed \$260,000, which he thought was enough to satisfy him as his share in the mining game. Mr. Hausman says the district is showing some activity and plenty of work being done to show the confidence locators have in that district eventually coming into the limelight. On the Springfield and Baltimore over \$3000 has been spent in development. Stewart brothers have a shaft down in the Lone Mountain district for a depth of 105 feet through copper at the way.

RESCINDS VOTE ON A STRIKE

REFERENDUM SET FOR NEXT WEEK RECALLED BY MINERS' UNION

The Miners' Union last night at the weekly meeting rescinded its previous action calling for a referendum vote next Tuesday on the question of authorizing a general strike in the Tonopah district. This sets at rest all fear of labor trouble which had been used as a means of bearing the price of stocks and also relieves the working miners from apprehensions regarding the future welfare of their direct interests.

The referendum was suggested originally for the purpose of compelling delinquent members to face the issue of paying their dues or leaving control of the union to the men who were willing to carry their share of the burden of operating. Last pay-day fell on Tuesday, the regular weekly meeting date, and the response of delinquents was so general that the matter was brought up at night for reconsideration. Officers of the union are busy with plans for the adoption of the co-operative store and the members show an interest in the movement that leads to the belief that the movement will meet with universal approval.
